

epic safes - Belmont range

Epic BELMONT Safe
Suggested cash rating
£17,500.

Body

Inner and outer body are constructed from high grade steel welded together to form a body which is packed with high quality concrete to resist tool and forced attacks. Also contained in the body are steel ties welded to the inner and outer body to resist delamination and wedging attacks. Base fixings as standard.

Door

A 50mm total thickness with hardened steel plates - contains drill resistant material.

Boltwork

3 way moving bolts and fixed rear back dog bolts are made from 30mm solid steel that lock securely into an inner lining. One live and two passive anti-explosive devices.

Locking

The door is locked using a high quality keylock with an additional anti-explosive (AED) which is permanently in place ready to activate should an attack occur.
